Education

Sept 2013 - June 2014	Specialist in Automated Management of Technological Processes. Kherson National Technical University.
Sept 2010 - June 2013	Bachelor in Automated Management of Technological Processes. Kherson National Technical University.

About me

Objective	Start the carreer as a junior Javascript developer.
Summary	Strong knowledge of Javascript. Understand principles and technics that used to create quality software. I'm always trying to write a maintainable, modular and testable code, also practicing TDD approach in my projects.

Have experience with node.js server-side model, was building simple long-polling/websocket chats. The list of technologies and my projects will be further.

Constantly evolving and learning, trying everything on practice. That's how I improve my knowledge :

- I read a lot of specialized books and articles, here is a link to my bookshelf. My favorites are "Code Complete" and "Clean Coder".
- learn the code of big projects on Github.
- study Computer Science courses from this list.
- also learn math on khanacademy.org

Computer skills

Proficient in	Javascript, HTML, CSS(SASS)
Unit-tests	Jasmine, Mocha
API / Frameworks	Chrome APIs, Bootstrap
Experience with	AJAX, Websocket, JSONP
Some experience with	C, mysql, apache, Wordpress, Opencart
Tools	git, Gulp, Grunt, Webstorm, Photoshop
OS	Linux (advanced user)

Code examples

Sight keeper — Extension for Google Chrome, reminds user about rest in a smart way. Technologies used in the project : styles SASS, CommonJS module system (Browserify), unit-tests Mocha(Chai, Sinon)+phantomjs, task-runner Gulp.js.
